

Company Profile

Advanced Flow, Measurement & Control Solutions

About the Company

Mad Shean Ltd. is a long-established Israeli company, operating since 1989 in the fields of water meters, flow meters, control instrumentation, process equipment and measurement solutions for industry, infrastructure and water systems. The company specializes in providing reliable, precise technical solutions to institutional, industrial, municipal and agricultural customers.

The company combines decades of field experience, in-depth technical knowledge, an accredited testing and calibration laboratory, and the import and marketing of quality equipment, **with full technical service and professional support — from specification through installation, commissioning and after-sales care.**

Fields of Activity

Mad Shean Ltd. provides solutions across a wide range of fields:

 Water & Flow Meters For water, wastewater, chemicals and processes	 Measurement Instrumentation Flow, level, pressure, temperature, pH, ORP, turbidity and conductivity	 Process Fittings Process fittings for chemicals
 Valves & Actuators Valves, actuators and pipeline accessories	 IoT & Remote Monitoring Data collection, alerts, reports and dashboards	 ISO/IEC 17025 Accredited Laboratory Water-meter testing, verification and calibration to professional and regulatory requirements

Company Advantages

Mad Shean Ltd. does not settle for selling equipment alone. The company provides its customers with a complete professional response, including understanding the need, selecting the right solution, verifying suitability for actual operating conditions, installation support, commissioning guidance and after-sales service.

The company represents and markets in Israel leading manufacturers from Israel and around the world in the fields of water meters, flow meters, control instrumentation, process fittings and solutions for industry and water systems. Alongside its existing product range, Mad Shean continuously seeks out new solutions, advanced technologies and complementary products — to provide every customer with the most professional, reliable and efficient answer to their needs.

Target Audiences

The company's customers include:

Local authorities & water utilities	Industrial plants	Water & wastewater treatment facilities	Infrastructure contractors	Engineering firms
Chemical plants	Agricultural systems	Cooling facilities	Hospitals	Public institutions

 Commitment to Quality & Service The company regards quality, reliability and professional service as core values. Every project is evaluated against actual operating conditions: customer requirements, site constraints, fluid type, materials, flow ranges, installation conditions and maintenance requirements.	 Company Vision The company's vision is to continue leading the measurement, control and monitoring field in Israel by combining quality products, professional knowledge, reliable service and advanced technologies — while constantly expanding its solutions portfolio and delivering real value to its customers.
